Thanks Leanne,

I'm going to be at a workshop all day on Wednesday and won't be able to attend. Thanks for the summary on downstream uses. I'll take a look at that. I don't have anything else to add to this week's meeting.

-Dustin

**Subject:** For Wednesday

Hi Chris,

I have a few updates for you.

- 1) I've created a brief written follow up to our discussion regarding downstream uses. I thought it might serve to summarize some of our thinking and help us move the conversation forward. I have posted it on the Partner Website – under memos ([here is a direct link](#)).

Also for your reference, below is a reminder on how to access the Partner Web. (Also see the attachment if you need more info and let me know if you have any trouble.)

- 2) This is my only item for discussion this week – **do you (or Andrew or Dustin)** have anything else you'd like to discuss?
- 3) I've thought about your question regarding our meeting frequency. I think for now, it would be good to keep our biweekly calls on the calendar. We could reduce them to an hour – since we often only use an hour anyway. Let me know your preference.
- 4) Andrew and I have a meeting until 2:00 on Wednesday this week – so might be a little to the call. **Shall we just say we'll begin at 2:15?**

Thanks,

Leanne
